ABOUT

Information Systems student at Universitas Indonesia focused on cybersecurity, web application security, CTF, and digital forensics. Active in Network, Security, and Operating Systems SIG on RISTEK Fasilkom UI and Scientific Committee Staff for COMPFEST 18 CTF, developing Web Exploitation and Digital Forensics challenges. Experienced in CTF problem solving, basic web development, technical documentation, and collaborative project execution. Open to cybersecurity internship, QA/testing, technical documentation, and remote technical support opportunities.

EDUCATION

- **Universitas Indonesia** 2025 - Present
Bachelor of Computer, Information System, Faculty of Computer Science
- **SMAN 1 Probolinggo** 2022 - 2025
Natural Science
 - GPA: 92,14/100

LEADERSHIP & TECHINICAL EXPERIENCE

Open House Fasilkom UI 2025 Aug 2025 – Nov 2025
Staff of Digital Engagement & Collaborations

- Awarded **Best Staff** for outstanding contribution to digital promotion and content creation.
- Produced promotional videos, thumbnails, and social media content to support event engagement.

RISTEK Fasilkom UI 2026 Mar 2026 – Now
Member of Network, Security, and Operating System (NetSOS) SIG

- Participating in internal classes on Linux, networking, security protocols, and CTF problem solving.
- Practicing web security fundamentals, vulnerability research, and ethical hacking workflows through labs and CTF-style exercises.

COMPFEST18 2026 Apr 2026 – Now
Scientific Committee Staff, Capture The Flag Competition

- Designed and developed Web Exploitation and Digital Forensics challenges for a national-level CTF competition, including challenge concepts, vulnerability scenarios, hints, expected solve paths, and flag validation flows.
- Collaborated with the scientific committee to review challenge difficulty, technical accuracy, participant experience, and edge-case coverage, while documenting reproducible failure paths, severity, expected behavior, and participant-facing guidance.
- Applied an adversarial testing mindset through CTF challenge development and AI chatbot evaluation, assessing responses for correctness, safety, bias, ambiguity, and responsible model behavior.

AWARDS & COMPETITIONS

- Top 15 National Finalist - FINDIT! CTF 2026, DTETI FT Universitas Gadjah Mada (UGM)
- Top 60 Team - ARA CTF 7.0 2026, Institut Teknologi Sepuluh Nopember (ITS)
- Team Participant - Arkavidia CTF 10.0, Institut Teknologi Bandung (ITB)

PROJECTS

FlagWarden

Telegram CTF Cybersecurity Learning Bot

- Built FlagWarden, a Telegram-based CTF Cybersecurity Learning Bot with interactive daily/random challenges, quizzes, progressive hints, answer validation, scoring, streak tracking, and ethical safety guardrails for legal CTF-only practice.

- Implemented stateful conversational UX using command-based and button-based Telegram flows with SQLite persistence, duplicate-solve prevention, hint-based score reduction, rate limiting, and user progress tracking.
- Developed a FastAPI webhook backend with health/metrics endpoints, automated tests for challenge logic, scoring, safety refusal, database behavior, and bot adapters, plus portfolio documentation including setup guide, screenshots, demo script, manual QA checklist, and BotFather branding guide.

SKILLS & CERTIFICATIONS

- **Technical Skills:** Cybersecurity, Web Exploitation, Digital Forensics, CTF, OWASP Top 10, Linux, Python, C++, HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Security Topics:** SSTI, XSS, SQL Injection, JWT, IDOR, File Carving, Steganography, Memory Dump, Network & PCAP Analysis
- **Soft Skills:** Communication, Teamwork, Problem Solving, Critical Thinking
- **Languages:** Bahasa Indonesia (Native), English (Limited Working Proficiency)
- **Certifications:** Cisco Introduction to Cybersecurity, Schematics ITS Bootcamp Web Development Basic & Advance, Sololearn Python Developer
